

A national network of Clean Cities and Communities coalitions **builds local relationships** across the United States.

Coalitions **help businesses and consumers** adopt alternative fuel vehicles and advanced transportation technologies.

Coalition activities have reduced greenhouse gas emissions by **72 million tons.**

Helping school districts adopt school buses with low or no tailpipe emissions creates **cleaner air** at local schools.

Incorporating community-driven choices improves **equitable access** to advanced transportation.

Coalitions tailor projects to unique needs through partnerships with **20,000 stakeholders.**

Shared mobility options, including shuttles, buses, e-bikes, and scooters, can **reduce travel costs, energy consumption, and traffic congestion.**

Clean Cities and Communities coalitions act locally in **urban, suburban, and rural communities** to foster the nation's economic, environmental, and energy security and move our transportation systems into the clean energy future.
