[...More](#)

What's New in Version 1.0.1

- Add connector type information to electric charging station results
- Bug fixes

iPhone Screenshot

- Nightly downloads of data from three electric vehicle supply equipment (EVSE) networks

**ChargePoint
Network**

Blink Network

**SemaCharge
Network**

- More networks coming soon!

Faster Updates!

Updating a Station

- Search the Station Locator and select “Edit this station”
- Email TechnicalResponse@icfi.com

Adding a New Station

- **One station:** Use the “Add a station” button in the Station Locator
- **Several stations:** Email TechnicalResponse@icfi.com to request a spreadsheet

Removing a Station

- Email TechnicalResponse@icfi.com

Reminder: Current Fuel-Specific Fields

Fuel	Fields
Biodiesel	Blends available
CNG	<ul style="list-style-type: none">• Fill type (fast, timed)• Compression (psi)• Vehicle accessibility (light-, medium-, or heavy-duty)
EVSE	<ul style="list-style-type: none">• Charging network (link to website)• Type/level• Number of ports• Connector type• Legacy chargers
E85	Mid-level blend availability
Hydrogen	Status website
LNG	Vehicle accessibility
Propane	Services (primary or secondary)

- **NEW STATION LOCATOR FEATURES**
 - Additional fuel-specific search options
 - More search options for Data Download
 - More fields on the Add and Edit a Station forms, and customized forms by fuel type
 - More detailed EVSE maps
 - Tool for accessing historical data
- **NEW APP FEATURES**
 - Android interface
 - Additional fuel-specific search options
 - User-submitted feedback and new station updates
 - More detailed EVSE maps
 - EVSE “Help” information
- **NEW FIELDS**
 - EVSE: Pricing information

CNG Vehicle Fueling Animation

Use this interactive animation to learn more about how the outside temperature and fill speeds affect the final fill volume in compressed natural gas vehicle tanks. Learn more about [filling CNG vehicle tanks](#).

20-GGE CNG Vehicle Fuel Tank (Rated to 3600 psi at 70° F)

70°

0.0 Gasoline gallon equivalents (GGEs)

CNG Vehicle Fuel Tank Animation

When fueling a compressed natural gas (CNG) vehicle tank, the amount of fuel in a "full tank" will vary depending on ambient temperature and fill rate. The dispenser automatically stops filling when it reaches a pressure that will allow the gas inside to safely expand or contract based on typical daily temperature changes.

Gas rapidly expands (low pressure) into the tank. As the gas cools rapidly, the expansion phenomenon occurs.

Try it. Choose different fill speeds and temperatures and watch what happens.

Assumptions

Fill Speed: Fast-fill Time-fill

Ambient Temp: 0° 70° 100°

Animation Speed: 1x 2x

Start 0 min 5 min 1 hr 2 hr
